

Northeast Caravan Instructions

Greetings.

If your listing is in one of the zip codes listed for Northeast Caravan, you are in the right place to have your listing on our weekly caravan. Please remember, there is no caravan on the Tuesday of the Main meeting at S.A.R..

The following is the procedure putting your home on caravan:

First step is to enter it in MLS for Caravan for the date you want (sounds like 3/10 is that date). Go to the Revise Listing area for your listing (where you would add/edit photos) and one of the choices should be something like Add to Caravan. When you click on this, you choose the date you want for Northeast Caravan.

Once you do this, the next step is to come to that meeting with flyers and present your listing at the Introductions and Pitches time. The meeting begins at 8:30am at Orangevale Community Center and goes for about 1 hour.

Those who tour will generally go directly from the meeting, so you should be at your listing from after the meeting until about 11am. We generally have a half dozen or more who will tour out of 35-50 attendees of the meeting.

What some folks do to make the time more productive is to put out signs as you would for an open house and that way you may get some of the public to stop in during your time there.

Food or refreshments is not necessary, but, can't hurt either!

Hope this is helpful.

Please let me know if you have other questions.
